EDUCATION

2016 - 2020

NATIONAL ECONOMICS UNIVERSITY

- Bachelor of Business English
- Member of Student Securities Club
- National Second Winner Place at World Quant
- IELTS 7.0

SKILLS

- AI Agents, MCP
- API Testing (Postman, Swagger)
- Smart Contract Testing
- Blockchain Testing
- Database Testing (MySQL, MongoDB)
- Playwright
- Performance Testing (K6)
- Agile/Scrum

PROFILE

QA Engineer with 5 years of experience in software quality assurance across Web2 and Web3 applications. Experienced in testing blockchain products, including staking, DEX, lending, DAO governance, incentive programs, airdrops, smart contracts, and on-chain features, with a solid foundation in ERP systems.

WORK EXPERIENCE

Amnis Finance

OCT 2023 — PRESENT

Senior QA Engineer

- Built end-to-end Playwright test suite covering 200+ critical user flows
- Reduced regression testing time from 8h to 45min via automation
- Integrated test pipeline into GitHub Actions CI/CD for every PR
- Defined QA standards and documented test strategies for the team

Key Projects:

- **Amnis Finance - Staking Platform**

Performed end-to-end testing for staking features across Frontend, Backend, APIs, and Smart Contracts. Tested DAO governance, strategy management, and core system functionalities. Verified rewards, airdrops, and on-chain transactions.

- **DEX Platform/Lending Protocol**

Performed end-to-end testing across Frontend, Backend, and Smart Contracts for token swaps, liquidity management, AMM mechanics, and ve(3,3) governance.

- **Blockchain Super App**

Validated business requirements, smart contract interactions, APIs, and data integrity using Postman, Swagger, MySQL, MongoDB, DBeaver, and blockchain explorers.

SYNERGIX TECHNOLOGIES PTE LTD

JUL 2021 — SEP 2023

Junior Software QA

- Collaborate with Business Analysts to clarify project requirements, analyze software specification documents, and prepare test plans, test cases for manual testing.
- Execute manual testing, work closely with the development team to identify root causes of defects, and use SQL to validate, update, and fix data for testing and production support.
- Prepare User Manual documentation and provide post-release support to customers, including troubleshooting software issues and data-related problems.
