PROFILE

QA Engineer with 5 years of experience in software quality assurance across Web2 and Web3 applications. Experienced in testing blockchain products, including staking, DEX, lending, DAO governance, incentive programs, airdrops, smart contracts, and on-chain features, with a solid foundation in ERP systems.

Skilled in manual testing, API testing, regression testing, test planning, defect management, and performance testing. Worked with Postman, Swagger, Playwright, K6, MCP, AI Agents, MySQL, MongoDB, DBeaver, and Figma. Enjoy collaborating with cross-functional teams in Agile/Scrum environments to deliver reliable, high-quality software.

EXPERIENCE

Senior QA Engineer Amnis Finance · Hanoi

Oct 2023 –
Present

Experienced in QA for Web3 applications, including staking, DEX, lending, wallets, DAO governance, and blockchain super apps. Skilled in manual testing, API testing, regression testing, test planning, and defect management within Agile teams.

Junior Software QA SYNERGIX TECHNOLOGIES PTE LTD

July 2021 –
Sep 2023

Built a solid foundation in ERP testing by validating end-to-end business processes across finance, procurement, inventory, sales, and operations.
